Leicester—
Sept. 23/60.

Dear Burleigh,

My date shows how near we are to the end of September; and I cannot refrain from writing to inquire, "Watchman, what of the last year's Report"— Such a vehement desire have I to know of its progress. Pray tell me, — no matter how few words you write, for I don't want to hinder you to write one extra letter, — just what it's state & forward help it. Truly Yrs. S. May 2
